## Ellington Financial Inc. Reports First Quarter 2023 Results

OLD GREENWICH, Connecticut—May 8, 2023

Ellington Financial Inc. (NYSE: EFC) (the "Company") today reported financial results for the quarter ended March 31, 2023.

### Highlights

- Net income attributable to common stockholders of \$38.9 million, or \$0.58 per common share.<sup>1</sup>
  - \$40.9 million, or \$0.61 per common share, from the investment portfolio.
    - \$35.5 million, or \$0.53 per common share, from the credit strategy.
    - \$5.3 million, or \$0.08 per common share, from the Agency strategy.
  - \$6.5 million, or \$0.10 per common share, from Longbridge.
- Adjusted Distributable Earnings<sup>2</sup> of \$30.3 million, or \$0.45 per common share.
- Book value per common share as of March 31, 2023 of \$15.10, including the effects of dividends of \$0.45 per common share for the quarter.
- Dividend yield of 14.9% based on the May 5, 2023 closing stock price of \$12.05 per share, and monthly dividend of \$0.15 per common share declared on April 10, 2023.
- Recourse debt-to-equity ratio<sup>3</sup> of 2.1:1 as of March 31, 2023. Including all non-recourse borrowings, which primarily consist of securitization-related liabilities, debt-to-equity ratio of 9.0:1.
- Cash and cash equivalents of \$188.6 million as of March 31, 2023, in addition to other unencumbered assets of \$429.1 million.
- Issued 4.0 million shares of Series C preferred stock.

### First Quarter 2023 Results

"During the first quarter, we had strong performance in our non-QM, residential transition loan, small-balance commercial mortgage, and Agency MBS portfolios. Longbridge Financial also had an excellent quarter, led by strong gain on sale margins on new originations and mark-to-market gains on the HMBS MSR and proprietary loan portfolios," said Laurence Penn, Chief Executive Officer and President of Ellington Financial. "Despite the market volatility in March, EFC generated an economic return of 3.3% for the quarter, and sequentially increased both book value per share and Adjusted Distributable Earnings, which covered our dividend.

"In early February, we capitalized on a narrow window of market stability by participating in our first non-QM securitization of the year at attractive economics, and also by raising \$100 million of preferred equity, both of which positioned us well going into the heightened volatility of March. So far, most of the capital that we have put to work has been directed towards our loan businesses; this included the secondary market purchase of a portfolio of reverse mortgage loans at what we believe to be distressed prices. In addition, with our share price trading at a significant discount to book value per share in March, we opportunistically repurchased our common shares at highly accretive levels.

"We finished the first quarter with reduced leverage and a meaningful amount of dry powder available to invest. However, given the prospect of very significant asset sales from various troubled regional banks, we are being patient with capital deployment. In addition, while the credit performance of our loan portfolios continues to be strong, with recession fears looming we continue to tighten our underwriting criteria with an emphasis on keeping LTVs low and being highly selective on geography and property type. I believe that we are well positioned to take advantage of the opportunities that we will find as the year unfolds."

<sup>1</sup> Includes (\$8.4) million of preferred dividends accrued and certain corporate/other income and expense items not attributed to either the investment portfolio or Longbridge.

<sup>2</sup> Adjusted Distributable Earnings is a non-GAAP financial measure. See "Reconciliation of Net Income (Loss) to Adjusted Distributable Earnings" below for an explanation regarding the calculation of Adjusted Distributable Earnings.

<sup>3</sup> Excludes repo borrowings at certain unconsolidated entities that are recourse to us. Including such borrowings, the Company's debt-to-equity ratio based on total recourse borrowings was 2.2:1 as of March 31, 2023.

## Financial Results

### *Investment Portfolio Summary*

The Company's investment portfolio generated net income attributable to common stockholders of \$40.9 million, consisting of \$35.5 million from the credit strategy and \$5.3 million from the Agency strategy.

### *Credit Performance*

In the first quarter, the Company's total long credit portfolio, excluding non-retained tranches of consolidated non-QM securitization trusts, decreased by 5% sequentially to \$2.426 billion as of March 31, 2023, driven by a smaller commercial mortgage loan portfolio, as loan paydowns significantly exceeded new originations in that portfolio, and a smaller non-QM loan portfolio, following the completion of a non-QM securitization in February in which the Company participated. A portion of the decrease was offset by larger residential transition loan and non-QM retained tranche portfolios quarter over quarter.

The Company benefited from strong results in its credit strategy, driven by net interest income<sup>4</sup> from its loan portfolios, net gains on its non-QM loans, and low levels of credit losses. The Company also had positive earnings from unconsolidated entities, as net gains on certain equity investments in non-QM and commercial mortgage loan-related entities exceeded net losses on strategic equity investments in loan originators. A portion of these gains were offset by net losses on the Company's interest rate hedges. Finally, despite continued low levels of credit losses and strong overall credit performance, the Company did see an uptick in delinquencies on its residential and commercial mortgage loan portfolios during the quarter.

The net interest margin<sup>5</sup> on the Company's credit portfolio increased quarter over quarter to 2.49% from 2.44%, as higher asset yields more than offset a higher cost of funds.

### *Agency Performance*

The Company's total long Agency RMBS portfolio decreased by 12% quarter over quarter to \$853.1 million, as net sales and principal repayments exceeded net gains.

In January, interest rates and volatility declined and Agency MBS yield spreads tightened, as the market anticipated a slower pace of interest rate hikes by the Federal Reserve. In mid-February, markets reversed course, with interest rates and volatility rising and Agency yield spreads widening, on renewed anxiety over inflation and what the Federal Reserve's response would be. Then in March, turmoil in the banking system put further pressure on Agency yield spreads. Overall for the first quarter, Agency RMBS generated a negative excess return to U.S. Treasuries of (0.50%), with the most pronounced underperformance coming on low-coupon MBS due to concerns in March about future selling from distressed regional banks.

The Company had a net gain in its Agency RMBS portfolio for the quarter as net gains on its specified pools exceeded net losses on its interest rate hedges and slightly negative net interest income, which was driven by sharply higher financing costs.

Average pay-ups on the Company's existing specified pool portfolio decreased quarter over quarter, while its new purchases during the quarter consisted of pools with lower pay-ups. As a result, overall pay-ups on the Company's specified pools decreased to 0.89% as of March 31, 2023, as compared to 0.96% as of December 31, 2022.

During the quarter, the Company's cost of funds on Agency RMBS increased, driven by higher short-term interest rates and wider repo financing spreads. However, its asset yields also increased, and it continued to benefit from positive carry on its interest rate swap hedges, where it net receives a higher floating rate and pays a lower fixed rate. As a result, the net interest margin<sup>5</sup> on its Agency RMBS, excluding the Catch-up Premium Amortization Adjustment, increased quarter over quarter to 1.14% from 0.98%.

### *Longbridge Summary*

Longbridge's portfolio generated net income attributable to common stockholders of \$6.5 million.

Longbridge's portfolio increased by 35% sequentially to \$442.5 million as of March 31, 2023 due to larger holdings of unsecuritized HECM loans, primarily driven by an opportunistic purchase from a third party of a portfolio of HECM buyout loans; increased holdings of proprietary reverse mortgage loans; and a larger HMBS MSR Equivalent quarter over quarter.

Quarter over quarter, yield spreads in the reverse mortgage market tightened, despite weakness in the second half of March related to concerns over the banking system. Tighter yield spreads sequentially, combined with lower interest rates, generated

net gains on Longbridge's HMBS MSR Equivalent<sup>6</sup> and proprietary reverse mortgage loan portfolio in the first quarter. Longbridge also had a net gain on originations for the quarter as higher gain-on-sale margins more than offset lower origination volumes sequentially.

#### Corporate/Other

The Company's results also reflected the reduction, driven by credit spread widening, in the fair value of its unsecured long-term debt, its "Senior Notes," for which the Company has elected the fair value option.

(1) This information does not include U.S. Treasury securities, securities sold short, or financial derivatives.

(2) Includes equity investments in securitization-related vehicles.

(3) Includes corporate loans to certain loan origination entities in which the Company holds an equity investment.

(4) Retained non-QM RMBS represents RMBS issued by non-consolidated Ellington-sponsored non-QM loan securitization trusts, and interests in entities holding such RMBS.

(5) In accordance with U.S. GAAP, REO is not considered a financial instrument and as a result is included at the lower of cost or fair value.

(6) Includes equity investments in unconsolidated entities holding small balance commercial mortgage loans and REO.

(7) Includes an equity investment in an unconsolidated entity holding European RMBS.

#### Agency RMBS Portfolio<sup>(1)</sup>

The following table summarizes the Company's Agency RMBS portfolio holdings as of March 31, 2023 and December 31, 2022:

(\$ in thousands)	March 31, 2023		December 31, 2022

(1) This information does not include U.S. Treasury securities, securities sold short, or financial derivatives.

<sup>6</sup> HMBS assets are consolidated for GAAP reporting purposes, and HMBS-related obligations are accounted for on the Company's balance sheet as secured borrowings. The fair value of HMBS assets less the fair value of the HMBS-related obligations approximate fair value of the HMBS MSR Equivalent.

### Longbridge Portfolio<sup>(1)</sup>

Longbridge originates reverse mortgage loans, including home equity conversion mortgage loans, or "HECMs," which are insured by the FHA and which are eligible for inclusion in GNMA-guaranteed HECM-backed MBS, or "HMBS." Upon securitization, the HECMs remain on the Company's balance sheet under GAAP, and Longbridge retains the mortgage servicing rights associated with the HMBS, or "HMBS MSR Equivalent." Longbridge also originates "proprietary reverse mortgage loans," which are not insured by the FHA, and Longbridge has typically retained the associated MSRs. The following table summarizes Longbridge's loan-related assets as of March 31, 2023 and December 31, 2022:

### Financing

The Company's recourse debt-to-equity ratio<sup>2</sup>, adjusted for unsettled purchases and sales, decreased to 2.0:1 at March 31, 2023 from 2.5:1 at December 31, 2022. This decrease was primarily the result of a smaller investment portfolio, an increase in unencumbered assets, and an increase in total equity. The Company's overall debt-to-equity ratio, adjusted for unsettled purchases and sales, also decreased during the quarter to 8.9:1 as of March 31, 2023, as compared to 10.1:1 as of December 31, 2022.

The following table summarizes the Company's outstanding borrowings and debt-to-equity ratios as of March 31, 2023 and December 31, 2022:

	March 31, 2023		December 31, 2022

Recourse borrowings net of unsettled purchases and sales		2.0:1		2.5:1
Total borrowings net of unsettled purchases and sales		8.9:1		10.1:1

(1) Includes borrowings under repurchase agreements, other secured borrowings, other secured borrowings, at fair value, and senior unsecured notes, at par.

(2) Overall debt-to-equity ratio is computed by dividing outstanding borrowings by total equity. The debt-to-equity ratio does not account for liabilities other than debt financings.

(3) Excludes repo borrowings at certain unconsolidated entities that are recourse to the Company. Including such borrowings, the Company's debt-to-equity ratio based on total recourse borrowings is 2.2:1 and 2.7:1 as of March 31, 2023 and December 31, 2022, respectively.

- (4) All of the Company's non-recourse borrowings are secured by collateral. In the event of default under a non-recourse borrowing, the lender has a claim against the collateral but not any of the other assets held by the Company or its consolidated subsidiaries. In the event of default under a recourse borrowing, the lender's claim is not limited to the collateral (if any).

## Cautionary Statement Regarding Forward-Looking Statements

*This press release contains forward-looking statements within the meaning of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Forward-looking statements involve numerous risks and uncertainties. The Company's actual results may differ from its beliefs, expectations, estimates, and projections and, consequently, you should not rely on these forward-looking statements as predictions of future events. Forward-looking statements are not historical in nature and can be identified by words such as "believe," "expect," "anticipate," "estimate," "project," "plan," "continue," "intend," "should," "would," "could," "goal," "objective," "will," "may," "seek" or similar expressions or their negative forms, or by references to strategy, plans, or intentions. Forward-looking statements are based on our beliefs, assumptions and expectations of our future operations, business strategies, performance, financial condition, liquidity and prospects, taking into account information currently available to us. These beliefs, assumptions, and expectations are subject to risks and uncertainties and can change as a result of many possible events or factors, not all of which are known to us. If a change occurs, our business, financial condition, liquidity, results of operations and strategies may vary materially from those expressed or implied in our forward-looking statements. The following factors are examples of those that could cause actual results to vary from our forward-looking statements: changes in interest rates and the market value of the Company's investments, market volatility, changes in mortgage default rates and prepayment rates, the Company's ability to borrow to finance its assets, changes in government regulations affecting the Company's business, the Company's ability to maintain its exclusion from registration under the Investment Company Act of 1940, the Company's ability to maintain its qualification as a real estate investment trust, or "REIT," and other changes in market conditions and economic trends, such as changes to fiscal or monetary policy, heightened inflation, slower growth or recession, and currency fluctuations. Furthermore, forward-looking statements are subject to risks and uncertainties, including, among other things, those described under Item 1A of the Company's Annual Report on Form 10-K, which can be accessed through the Company's website at [www.ellingtonfinancial.com](http://www.ellingtonfinancial.com) or at the SEC's website ([www.sec.gov](http://www.sec.gov)). Other risks, uncertainties, and factors that could cause actual results to differ materially from those projected may be described from time to time in reports the Company files with the SEC, including reports on Forms 10-Q, 10-K and 8-K. The Company undertakes no obligation to update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise.*

## Reconciliation of Net Income (Loss) to Adjusted Distributable Earnings

The Company calculates Adjusted Distributable Earnings as U.S. GAAP net income (loss) as adjusted for: (i) realized and unrealized gain (loss) on securities and loans, REO, mortgage servicing rights, financial derivatives (excluding periodic settlements on interest rate swaps), any borrowings carried at fair value, and foreign currency transactions; (ii) incentive fee to affiliate; (iii) Catch-up Premium Amortization Adjustment (as defined below); (iv) non-cash equity compensation expense; (v) provision for income taxes; (vi) certain non-capitalized transaction costs; and (vii) other income or loss items that are of a non-recurring nature. For certain investments in unconsolidated entities, the Company includes the relevant components of net operating income in Adjusted Distributable Earnings. The Catch-up Premium Amortization Adjustment is a quarterly adjustment to premium amortization triggered by changes in actual and projected prepayments on the Company's Agency RMBS (accompanied by a corresponding offsetting adjustment to realized and unrealized gains and losses). The adjustment is calculated as of the beginning of each quarter based on the Company's then-current assumptions about cashflows and prepayments, and can vary significantly from quarter to quarter. For the contribution to Adjusted Distributable Earnings from Longbridge, the Company adjusts Longbridge's contribution to the Company's net income in a similar manner, but it includes in Adjusted Distributable Earnings certain realized and unrealized gains (losses) from Longbridge's origination business ("gain-on-sale income").

Adjusted Distributable Earnings is a supplemental non-GAAP financial measure. The Company believes that the presentation of Adjusted Distributable Earnings provides information useful to investors, because: (i) the Company believes that it is a useful indicator of both current and projected long-term financial performance, in that it excludes the impact of certain current-period earnings components that the Company believes are less useful in forecasting long-term performance and dividend-paying ability; (ii) the Company uses it to evaluate the effective net yield provided by its investment portfolio, after the effects of financial leverage and by Longbridge, to reflect the earnings from its reverse mortgage origination and servicing operations; and (iii) the Company believes that presenting Adjusted Distributable Earnings assists investors in measuring and evaluating its operating performance, and comparing its operating performance to that of its residential mortgage REIT and mortgage originator peers. Please note, however, that: (I) the Company's calculation of Adjusted Distributable Earnings may differ from the calculation of similarly titled non-GAAP financial measures by its peers, with the result that these non-GAAP financial measures might not be directly comparable; and (II) Adjusted Distributable Earnings excludes certain items that may impact the amount of cash that is actually available for distribution.

In addition, because Adjusted Distributable Earnings is an incomplete measure of the Company's financial results and differs from net income (loss) computed in accordance with U.S. GAAP, it should be considered supplementary to, and not as a substitute for, net income (loss) computed in accordance with U.S. GAAP.

Furthermore, Adjusted Distributable Earnings is different from REIT taxable income. As a result, the determination of whether the Company has met the requirement to distribute at least 90% of its annual REIT taxable income (subject to certain adjustments) to its stockholders, in order to maintain its qualification as a REIT, is not based on whether it distributed 90% of its Adjusted Distributable Earnings.

In setting the Company's dividends, the Company's Board of Directors considers the Company's earnings, liquidity, financial condition, REIT distribution requirements, and financial covenants, along with other factors that the Board of Directors may deem relevant from time to time.

The following table reconciles, for the three-month periods ended March 31, 2023 and December 31, 2022, the Company's Adjusted Distributable Earnings to the line on the Company's Condensed Consolidated Statement of Operations entitled Net Income (Loss), which the Company believes is the most directly comparable U.S. GAAP measure:
