

Ellington Financial

Presentation to Debt & Preferred Equity Investors

May 2023

Forward-Looking Statements

This presentation contains forward-looking statements within the meaning of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Forward-looking statements involve numerous risks and uncertainties. Our actual results may differ from our beliefs, expectations, estimates, and projections and, consequently, you should not rely on these forward-looking statements as predictions of future events. Forward-looking statements are not historical in nature and can be identified by words such as “believe,” “expect,” “anticipate,” “estimate,” “project,” “plan,” “continue,” “intend,” “should,” “would,” “could,” “goal,” “objective,” “will,” “may,” “seek,” or similar expressions or their negative forms, or by references to strategy, plans, or intentions. Examples of forward-looking statements in this presentation include statements regarding our portfolio composition, our ability to obtain financing, our expected dividend payment schedule, our ability to shift capital across different asset classes, our ability to hedge, our ability to grow our proprietary loan origination businesses, and our ability to maintain our earnings, among others.

The Company's results can fluctuate from month to month and from quarter to quarter depending on a variety of factors, some of which are beyond the Company's control and/or are difficult to predict, including, without limitation, changes in interest rates and the market value of the Company's investments, changes in mortgage default rates and prepayment rates, the Company's ability to borrow to finance its assets, changes in government regulations affecting the Company's business, the Company's ability to maintain its exclusion from registration under the Investment Company Act of 1940, the Company's ability to maintain its qualification as a real estate investment trust, or “REIT,” and other changes in market conditions and economic trends, such as changes to fiscal or monetary policy, heightened inflation, slower growth or recession, and currency fluctuations. Furthermore, forward-looking statements are subject to risks and uncertainties, including, among other things, those described under Item 1A of our Annual Report on Form 10-K, which can be accessed through the Company's website at www.ellingtonfinancial.com or at the SEC's website (www.sec.gov). Other risks, uncertainties, and factors that could cause actual results to differ materially from those projected may be described from time to time in reports we file with the SEC, including reports on Form 10-Q, 10-K and 8-K. We undertake no obligation to update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise.

Modeling

Some statements in this presentation may be derived from proprietary models developed by Ellington Management Group, L.L.C. (“Ellington”). Some examples provided may be based upon the hypothetical performance of such models. Models, however, are inherently imperfect and subject to a number of risks, including that the underlying data used by the models is incorrect, inaccurate, or incomplete, or that the models rely upon assumptions that may prove to be incorrect. The utility of model-based information is highly limited. The information is designed to illustrate Ellington's current view and expectations and is based on a number of assumptions and limitations, including those specified herein. Certain models make use of discretionary settings or parameters which can have a material effect on the output of the model. Ellington exercises discretion as to which settings or parameters to use in different situations, including using different settings or parameters to model different securities. Actual results and events may differ materially from those described by such models.

Example Analyses

The example analyses included herein are for illustrative purposes only and are intended to illustrate Ellington's analytic approach. They are not and should not be considered a recommendation to purchase or sell any security or a projection of the Company's future results or performance. The example analyses are only as of the date specified and do not reflect changes since that time.

Projected Yields and Spreads

Projected yields and spreads discussed herein are based upon Ellington models and rely on a number of assumptions, including as to prepayment, default and interest rates and changes in home prices. Such models are inherently imperfect and there is no assurance that any particular investment will perform as predicted by the models, or that any such investment will be profitable. Projected yields are presented for the purposes of (i) providing insight into the strategy's objectives, (ii) detailing anticipated risk and reward characteristics in order to facilitate comparisons with other investments, (iii) illustrating Ellington's current views and expectations, and (iv) aiding future evaluations of performance. They are not a guarantee of future performance. They are based upon assumptions regarding current and future events and conditions, which may not prove to be accurate. There can be no assurance that the projected yields will be achieved. Investments involve risk of loss.

Financial Information

All financial information included in this presentation is as of March 31, 2023 unless otherwise indicated. We undertake no duty or obligation to update this presentation to reflect subsequent events or developments.

Ellington Financial Overview	4
The Ellington Platform	5
Ellington Financial Inc. (NYSE: EFC)	16
Supplemental Information	27

Hybrid mortgage REIT with diversified investment portfolio and income stream: residential and commercial mortgage, consumer / corporate loans, as well as multiple proprietary loan origination businesses; ability to shift capital allocation across various asset classes

Reduced volatility of book value and more consistent economic returns relative to peers: dynamic hedging strategies, diversification, risk and liquidity management, and active portfolio management

Strong history of navigating severe market disruptions: maintained book value stability and generated profits through the 2008 financial crisis, the 2013 taper tantrum, and the turbulence caused by the COVID-19 pandemic

Diversified sources of financing: long-term, non-mark-to-market financing facilities and securitizations

Demonstrated discipline accessing capital markets: common stock, preferred stock, and unsecured debt

Attractive NAIC-1 rating: senior unsecured notes and preferred stock, rated “A” and “A-” respectively

Strong alignment of interests: approx. \$59 million invested in EFC by management and directors, along with partners / affiliates of Ellington

Mark Tecotzky Co-Chief Investment Officer	35	16	<ul style="list-style-type: none"> • Vice Chairman and Co-Head of Credit Strategies of Ellington • Former senior mortgage trader at Credit Suisse • B.S. from Yale University • Received a National Science Foundation fellowship to study at MIT
JR Herlihy Chief Financial Officer	19	11	<ul style="list-style-type: none"> • CFO of EFC and COO of EARN • Managing Director of EMG and former Co-Chief Investment Officer of Ellington Housing Inc. • Formerly Vice President of acquisitions at GTIS Partners LP • B.A. in Economics and History from Dartmouth College (summa cum laude, Phi Beta Kappa)

Ellington employs over 170 people; approximately 25% are dedicated to research and technology

Ellington has over 170 employees supporting approximately \$9.7 billion⁽¹⁾ in assets under management

Sophisticated infrastructure supports rigorous management of credit, interest rate, liquidity, and other risks

- CEO, Portfolio Management (PM) Committee and Risk Oversight Committee set top-down portfolio and strategy targets / limits
- Sector specialized PMs access niche, high risk-adjusted returning opportunities through deep networks
- Proprietary data sources, pricing models and data analytics utilized to analyze collateral and set purchase / sales price targets

- Exposures assessed relative to industry, capital structure, loan terms and other limits as well as across a range of stress tests and scenarios
- PMs determine proper trade hedges, where applicable, with the Risk Oversight Committee and Research
- Senior PMs review larger investments
- Senior PMs / PMs execute the trade

- Trade suitability and allocation based on liquidity and maximum drawdown parameters
- Automated allocation systems, overseen by Compliance and Risk Oversight teams
- Middle Office and Operations manage portfolio holdings, settlements and financing; Risk Oversight generates and reviews position- and fund-level risk reports
- Investment theses and structures, including portfolio hedges, continuously reviewed and revised by PMs and Risk Oversight

Compliance Program

- Chief Compliance Officer and dedicated team
- Compliance Committee
- Compliance Manual and Code of Ethics
- Internal culture (“tone at the top”)
- Annual training
- Third-party mock regulatory examinations
- Firm-wide notices and intranet service

Extensive Surveillance Infrastructure

- Oversight integrated with proprietary portfolio management system (automated diagnostics and full data transparency)
- Personal trading and certification system
- Email and Bloomberg message review process
- Other external sources (whistleblower service, etc.)

Internal Audit Program

- Head of Internal Audit - oversee CNM LLC
- Sarbanes-Oxley testing oversight
- Review of infrastructure exceeding requirements of Sarbanes-Oxley (“out of scope testing”)
- Intrusion testing
- Disaster recovery plan formulation and testing

- Modeling, research and infrastructure have been at the heart of Ellington's business model since it was founded
 - 25% of Ellington's employees are in research and technology
- Loan-level models provide deep insight into value and risk across a wide range of instruments
 - Rely on analysis of terabytes of data not in public domain

Risk and Portfolio Monitoring

Risk exposure monitoring, automatic refresh of valuations and risk measures, daily reports and intra-day monitors

Trading and Research

Borrower behavior models, collateral surveillance, relative valuation monitoring within and among sectors

Operations and Compliance

Automated trade allocation, compliance monitoring, threshold monitoring, trade blotter, cash management, accounting systems

Robust infrastructure provides a constant, dynamic feedback loop between Research, Trading, Portfolio Management, and Oversight disciplines

Operations & Governance

- Automated trade allocation
- Threshold monitoring
- Trade blotter
- Cash management
- Accounting systems
- Compliance monitoring
- Disaster recovery
- Risk management
- Financial reporting

Risk Oversight

- Real-time monitoring capabilities
 - Credit risk scenarios and exposures
 - Historic / future shock scenarios
 - Geographic exposure
 - Natural disaster exposure
 - Tenant credit updates
 - Collateral changes
 - Interest rate scenarios
 - Liquidity
 - Operational, legal, and reputational risks

Data, Research & Trading

- Source, clean, link, aggregate and analyze data to build predictive models:
 - Loan-level analysis
 - Collateral surveillance
 - Relative valuation monitoring within and among sectors
 - Cash flow, credit, interest rate and prepayment models
 - Consumer behavior and financial data
- Automated refresh of valuations
- Real-time position modeling / tracking

Portfolio Management

- System maintains information on tens of thousands of financial instruments across over 40 instrument types
- Full range of fixed income, equities and their derivatives

Ellington is committed to corporate social responsibility. We recognize the importance of environmental, social and governance (“ESG”) factors, and believe that the implementation of ESG policies will benefit our employees, support long-term stockholder performance, and make a positive impact on the environment and society as a whole. Our Manager has a standing ESG Committee to address a variety of issues, including its impact on the environment, increasing the diversity of its workforce, employee engagement, and community involvement.

Environmental

- Our offices are conveniently located near mass transportation.
- We provide financial support and incentives to our employees who use public transit.
- To reduce energy usage, we use Energy Star® certified desktops, monitors and printers; and utilize motion sensor lighting and cooling to reduce energy usage in non-peak hours.
- To reduce waste and promote a cleaner environment, we use green cleaning supplies and kitchen products; recycle electronics, ink cartridges, and packaging; provide recycling containers to employees; and use water coolers to reduce waste.
- We have reduced the number of single use cups and plastic water bottles in our offices.

Social

- We invest in home mortgage loans, which support homeownership and stability within communities.
- Ellington and senior members of management sponsor numerous charitable causes, including several devoted to diversity and children in need. We also support employee charitable contributions through matching gift programs, hosting food drives, and other community events.
- Our employees have access to robust health and wellness programs. Ellington also supports various events that support health and wellness.
- We provide opportunities for personal growth with training, including facilitating a lunch & learn series, and reimbursing professional continuing education. We also support professional development through mentorship programs and affinity groups, such as a women’s networking group.
- We are committed to enhancing gender, racial, and ethnic diversity throughout our organization, as stated in our Manager’s Diversity and Inclusion Policy. We have engaged a women-owned recruiting firm focused exclusively on women and minority recruiting on college campuses.
- We are in compliance with applicable employment codes and guidelines, including ADA, Equal Opportunity Employment, Non-Discrimination, Anti-Harassment and Non-Retaliation codes.

Governance

- Our Manager has a Responsible Investment policy incorporating ESG factors into its investment processes for applicable strategies.
- We operate under a Code of Business Conduct and Ethics.
- EFC has a separate independent Chairman, and the majority of Board members are independent.
- We hold annual elections of Directors.
- We are committed to significant disclosure and transparency, including an established monthly book value disclosure and dividend policy.
- We have an established Whistleblower policy to encourage transparency and accountability.
- Robust process for stockholder engagement.
- Strong alignment through 6% co-investment⁽¹⁾

■ CREDIT ■ AGENCY ■ LONGBRIDGE

- **Residential transition loans and other residential mortgage loans and REO⁽⁸⁾** consist of residential transition loans (\$939.0mm), other residential loans (\$11.2mm), and REO (\$1.6mm)
- **Non-QM loans and retained non-QM RMBS⁽⁹⁾⁽¹⁰⁾⁽¹²⁾** consist of non-QM loans (\$411.7mm) and retained non-QM tranches (\$183.3mm)
- **Debt and Equity Investments in Loan Origination Entities⁽¹³⁾** consist of LendSure (\$25.2mm), and other loan origination entities (\$15.7mm)

Ellington Financial's vertically integrated, proprietary loan origination businesses are designed to:

- Lock in a steady flow of high-quality loan originations
- Leverage Ellington's core strengths of data analysis and modeling to help shape the underwriting criteria of the loans
- Generate highly attractive ROE profiles
- Represent significant potential upside to book value
- Fill lending void left by banks facing strict post-global financial crisis regulations

- EFC's dynamic interest rate hedging, along with the short duration of many of our loan portfolios, is designed to reduce our exposure to fluctuations in interest rates
- Diversified fixed income portfolio, after taking into account hedges, borrowings, and the interest rate sensitivity of preferred stock outstanding, results in an effective duration to the common stock of less than one year

We deploy a dynamic and adaptive hedging strategy to preserve book value

Agency Interest Rate Hedging Portfolio 3/31/23:
Short \$508.3mm 10-yr Equivalents⁽¹⁾

Net Agency Pool Exposure Based on Fair Value⁽²⁾

- We hedge along the entire yield curve to protect against volatility, defend book value and more thoroughly control interest rate risk
- EFC often carries significantly lower net effective mortgage exposure than our “headline” Agency leverage suggests
- Use of TBA short positions as hedges helps drive outperformance in volatile quarters
 - When interest rates spike, TBA short positions not only extend with specified pool assets, but they tend to extend more than specified pool assets, which dynamically and automatically hedges a correspondingly larger portion of our specified pool portfolio
- We also hedge interest rate risk with swaps, U.S. Treasury securities, and other instruments

Credit Hedging Portfolio⁽¹⁾⁽²⁾

- G: Debt and Equity Investments in Loan Originators
- H: Non-Dollar MBS, ABS, CLOs & Other⁽²⁾⁽⁵⁾
- I: Corporate Debt & Equity & Corporate Loans

As of 12/31/2022⁽¹⁾

The size of the long credit portfolio increased by 5% in the first quarter.

The size of our commercial bridge loan portfolio decreased as loan paydowns significantly exceeded new originations.

Our non-QM loan portfolio also declined in size, driven by the completion of a non-QM securitization in February and a slower pace of acquisitions of new originations

Growth in our portfolios of residential transition loans and non-QM retained tranches offset some of these declines.

* For consolidated non-QM securitization trusts, only includes retained tranches.

Diversified sources of return to perform over market cycles

- Our flexible approach allocates capital to the sectors where we see the best relative value as market conditions change⁽¹⁾
- We believe that our analytical expertise, research and systems provide an edge that will generate attractive risk-adjusted returns over market cycles

Note: Percentages shown reflect share of total fair market value of credit portfolio⁽²⁾⁽³⁾

- Small balance commercial mortgage loan portfolio is diversified geographically and across property types, with a tactical focus on multi-family
- All investments are first liens
- All investments are floating rate loans that benefit from interest rate floors

ARMs	6.3	
Fixed IOs	16.9	
Total	\$ 968.3	

- Agency RMBS portfolio decreased by 12% during the first quarter, as net sales and principal repayments exceeded net gains
- Net sales occurred in January and February, whereas we opportunistically added to the Agency portfolio in March around spread widening

As of 3/31/2023⁽¹⁾

As of 12/31/2022⁽¹⁾

- Longbridge originates reverse mortgage loans, including home equity conversion mortgage loans, or "HECMs," which are insured by the FHA and which are eligible for inclusion in GNMA-guaranteed HECM- backed MBS, or "HMBS."
 - Upon securitization, the HECMs remain on the Company's balance sheet under GAAP, and Longbridge retains the mortgage servicing rights associated with the HMBS.
 - In addition, Longbridge originates proprietary reverse mortgage loans, which are not insured by the FHA, and has typically retained the associated MSRs.
-
- Longbridge's portfolio increased by 35% in the first quarter, driven by the secondary market purchase of HECM buyout loans at what we believe to be distressed prices. Longbridge's holdings of proprietary reverse mortgage loans and MSRs also increased quarter over quarter.
 - In Q1, Longbridge originated \$233.6 million across these products, 77% through its wholesale and correspondent channel and 23% through its retail channel.

Repo Borrowings⁽¹⁾

(\$ in thousands)

Repo Borrowings as of March 31, 2023

Remaining Days to Maturity	Credit	Agency	U.S. Treasury	Total	% of Total Borrowings
30 Days or Less	\$ 53,953	\$ 342,461	\$ 132,043	\$ 528,457	23.1%

Diversified investment portfolio across residential mortgage, commercial mortgage, consumer loan, and corporate loan sectors

Proprietary portfolio of high-yielding, short-duration loans

Dynamic interest-rate and credit hedging designed to reduce volatility of book value and earnings

Strategic debt and equity investments in multiple loan originators, including reverse mortgage originator Longbridge Financial

Diversified sources of financing, including long term non mark-to-market financing facilities and securitizations

Strong alignment with 6% co-investment⁽¹⁾

Slide 6 – About Ellington Management Group

- (1) \$9.7 billion in assets under management includes approximately \$1.0 billion in Ellington-managed CLOs. For these purposes, the Ellington-managed CLO figure represents the aggregate outstanding balance of CLO notes and market value of CLO equity, excluding any notes and equity held by other Ellington-managed funds and accounts. Assets under management includes information as of March 31, 2023.
- (2) Does not include partners formerly employed by Ellington who may have residual capital balances but who no longer have voting rights in the partnership.
- (3) Management and directors' ownership includes common shares, operating partnership units, and LTIP units held by officers and directors of EFC, and partners and affiliates of Ellington (including families and family trusts of the foregoing). Based on book value per share.
- (4) Registration with the SEC does not imply that the firm or any of its principals or employees possess a particular level of skill or training in the investment advisory or any other business.

Slide 7 – Ellington Management Group

- (1) \$9.7 billion in assets under management includes approximately \$1.0 billion in Ellington-managed CLOs. For these purposes, the Ellington-managed CLO figure represents the aggregate outstanding balance of CLO notes and market value of CLO equity, excluding any notes and equity held by other Ellington-managed funds and accounts. Assets under management includes information as of March 31, 2023.
- (2) Management and directors' ownership includes common shares, operating partnership units, and LTIP units held by officers and directors of EFC, and partners and affiliates of Ellington (including families and family trusts of the foregoing).

Slide 8 – Access to Experienced Management

- (1) Holds a seat on the Board of Trustees of EARN.
- (2) Holds a seat on the Board of Directors/Trustees of EFC and EARN.
- (3) As of March 31, 2023.

Slide 9 – Our Infrastructure Is A Competitive Advantage

- (1) \$9.7 billion in assets under management includes approximately \$1.0 billion in Ellington-managed CLOs. For these purposes, the Ellington-managed CLO figure represents the aggregate outstanding balance of CLO notes and market value of CLO equity, excluding any notes and equity held by other Ellington-managed funds and accounts. Assets under management includes information as of March 31, 2023.

Slide 15 – Commitment to ESG

- (1) Management and directors' ownership includes common shares, operating partnership units, and LTIP units held by officers and directors of EFC, and partners and affiliates of Ellington (including families and family trusts of the foregoing).

Slide 17 – Portfolio Summary as of March 31, 2022

- (1) Includes REO at the lower of cost or fair value. Excludes hedges and other derivative positions.
- (2) Of deployed capital, 78% allocated to credit, 10% to agency, and 12% to Longbridge.
- (3) Average price excludes interest only, principal only, equity tranches and other similar securities and non-exchange traded corporate equity. All averages in this table are weighted averages using fair value, except for average price which uses current principal balance.
- (4) Average price of consumer loans and ABS is proprietary.
- (5) Weighted average life assumes “projected” cashflows using Ellington’s proprietary models. Excludes interest only, principal only, equity tranches.
- (6) Estimated yields at market prices are management’s estimates derived from Ellington’s proprietary models based on prices and market environment as of March 31, 2023 and include the effects of future estimated losses. The above analysis should not be considered a recommendation to purchase or sell any security or class of securities. Results are based on forward-looking models, which are inherently imperfect, and incorporate various simplifying assumptions. Therefore, the table is for illustrative purposes only and the actual performance of our portfolio may differ from the data presented, and such differences might be significant and adverse.
- (7) REO and equity investments in loan origination entities are excluded from total average calculations.
- (8) In accordance with U.S. GAAP, REO is not considered a financial instrument and as a result is included at the lower of cost or fair value.
- (9) For our consolidated non-QM securitization trusts, excludes tranches that were sold to third parties, but that are consolidated for GAAP purposes.
- (10) Retained non-QM RMBS represents RMBS issued by non-consolidated Ellington-sponsored non-QM loan securitization trusts, and interests in entities holding such RMBS.
- (11) Includes equity investments in unconsolidated entities holding small balance commercial mortgage loans and REO. Including our allocable portion of the fair value of small-balance commercial loans and REO of the equity investments in unconsolidated entities, our total CMBS and Commercial Mortgage Loans and REO was \$577.7 million.
- (12) Includes equity investments in securitization-related vehicles.
- (13) Includes corporate loans to certain loan origination entities in which the Company holds an equity investment.
- (14) Includes an equity investment in an unconsolidated entity holding European RMBS.
- (15) This information does not include financial derivatives or loan commitments.
- (16) As of March 31, 2023, includes \$52.0 million of assignable HECM buyout loans, \$16.4 million of non-assignable HECM buyout loans, and \$4.4 million of inactive HECM tail loans.
- (17) HMBS assets are consolidated for GAAP reporting purposes, and HMBS-related obligations are accounted for on the Company's balance sheet as secured borrowings. The fair value of HMBS assets less the fair value of the HMBS-related obligations approximate fair value of the HMBS MSR Equivalent.
- (18) Excludes repo borrowings on U.S. Treasury securities and borrowings at certain unconsolidated entities that are recourse to us. Including such borrowings, our debt-to-equity ratio based on total recourse borrowings, and adjusted for unsettled purchases and sales, is 2.2:1 as of March 31, 2023.
- (19) Excludes repo borrowings on U.S. Treasury securities and borrowings at certain unconsolidated entities that are recourse to us. In determining the debt-to-equity ratio for an individual strategy, equity usage for such strategy is based on an internal calculation that reflects the actual amount of capital posted to counterparties in connection with such strategy’s positions (whether in the form of haircut, initial margin, prime brokerage requirements, or otherwise) plus additional capital allocated to support such strategy’s positions, net of adjustments for readily financeable assets and securities that may be sold to increase liquidity on short notice. The Company refers to the excess of its total equity over the total risk capital of its strategies as its “risk capital buffer”. If the debt-to-equity ratios for individual strategies were computed solely based on the actual amount of capital posted to counterparties, such ratios would typically be higher. The debt-to-equity ratio does not account for liabilities other than debt financings.
- (20) Overall debt-to-equity ratio is computed by dividing EFC’s total debt by EFC’s total equity. The debt-to-equity ratio does not account for liabilities other than debt financings. Excludes repo borrowings on U.S. Treasury securities.

Slide 18 – Proprietary Loan Origination Businesses

- (1) For our consolidated non-QM securitization trusts, excludes loans in consolidated non-QM securitization trusts that were sold to third parties.
- (2) Includes our allocable portion of the fair value of certain small-balance commercial loans, based on our ownership percentage, held in entities in which we and certain affiliates of Ellington have equity interests. Our equity investments in such entities are included in Investments in unconsolidated entities, at fair value on the Condensed Consolidated Balance Sheet.
- (3) We originate reverse mortgage loans through Longbridge, a majority owned subsidiary as of 10/3/2022.
- (4) For reverse mortgage loans, Total Fair Value at 3/31/2023 includes \$187.8 million in Unsecuritized HECM loans and \$138.2 million in proprietary reverse mortgage loans.
- (5) Loans acquired during the quarter represent initial borrowing amounts on newly originated reverse mortgage loans and the unpaid principal balance for HECM buyout loans acquired. Amounts exclude HECM tail loans.

Slide 19 – Total Return Since Inception

- (1) Total return is based on \$18.61 net diluted book value per share at inception in August 2007 and is calculated assuming the reinvestment of dividends at diluted book value per share and assumes all convertible units were converted into common shares at their issuance dates.

Slide 20 – Stable Economic Return

- (1) Source: Company filings.
- (2) Economic return is computed by adding back dividends to ending book value per share and comparing that amount to book value per share as of the beginning of the quarter.

Slide 21 – Resilient Profit Generation Over Market Cycles

- (1) Gross profit excludes expenses other than interest expense and other investment related expenses. Figures in “%” columns are as a percentage of average total equity for the period which includes common and preferred equity as well as non-controlling interests.
- (2) Interest expense on senior notes, unrealized gain/(loss), net and interest rate hedges and other activity, net related to corporate/other are allocated to credit and Agency based on average capital.

Slide 22– Interest Rate Sensitivity Analysis

- (1) The table reflects the estimated effects on the value of our portfolio, both overall and by category, of hypothetical, immediate, 50 basis point downward and upward parallel shifts in interest rates, based on the market environment as of March 31, 2023. The preceding analysis does not include sensitivities to changes in interest rates for instruments which we believe that the effect of a change in interest rates is not material to the value of the overall portfolio and/or cannot be accurately estimated. In particular, this analysis excludes certain corporate securities and derivatives on corporate securities, and reflects only sensitivity to U.S. interest rates. Results are based on forward-looking models, which are inherently imperfect, and incorporate various simplifying assumptions. Therefore, the table is for illustrative purposes only and actual changes in interest rates would likely cause changes in the actual value of our portfolio that would differ from those presented, and such differences might be significant and adverse.

Slide 23 – Agency Interest Rate Hedging Portfolio

- (1) Agency interest rate hedges are shown in normalized units of risk, with each group of positions measured in “10-year equivalents; “10-year equivalents” for a group of positions represent the amount of 10-year U.S. Treasury securities that would be expected to experience a similar change in market value under a standard parallel move in interest rates.
- (2) We define our net Agency pool assets-to-equity ratio as the net aggregate market value of our Agency pools of \$838.2 billion and our long and short TBA positions of \$(292) million, divided by the equity allocated to our Agency strategy of \$132 million, as of March 31, 2023. In determining the debt-to-equity ratio for an individual strategy, equity usage for such strategy is based on an internal calculation that reflects the actual amount of capital posted to counterparties in connection with such strategy’s positions (whether in the form of haircut, initial margin, prime brokerage requirements, or otherwise) plus additional capital allocated to support such strategy’s positions, net of adjustments for readily financeable assets and securities that may be sold to increase liquidity on short notice. The Company refers to the excess of its total equity over the total risk capital of its strategies as its “risk capital buffer”. If the debt-to-equity ratios for individual strategies were computed solely based on the actual amount of capital posted to counterparties, such ratios would typically be higher. The debt-to-equity ratio does not account for liabilities other than debt financings.

Slide 24 – Credit Hedging Portfolio

- (1) The Credit Hedging Portfolio excludes both legs of certain relative value trades which we believe do not affect the overall hedging position of the portfolio. Consequently, the amounts shown here may differ materially from those that would be shown were all positions in the included instruments displayed.
- (2) There can be no assurance that instruments in the Credit Hedging Portfolio will be effective portfolio hedges.
- (3) Corporate derivatives displayed in HY CDX OTR Equivalents represent the net, on-the-run notional equivalents of Markit CDX North American High Yield Index (the “HY Index”) of those derivatives converted to equivalents based on techniques used by the Company for estimating the price relationships between them and the HY Index. These include estimations of the relationships between different credits and even different sectors (such as the US high yield, European high yield, and US investment grade debt markets). The Company’s estimations of price relationships between instruments may change over time. Actual price relationships experienced may differ from those previously estimated.
- (4) Bond Equivalent Value represents the investment amount of a corresponding position in the reference obligation or index constituents, calculated assuming a price equal to the difference between (i) par and (ii) the tear up price. Corporate CDS Indices, Tranches, Options and Single Names are converted to HY CDX OTR Equivalents prior to being displayed as Bond Equivalent Values.

Slide 25 – Diversified Sources of Financing

- (1) Includes Other secured borrowings and Other secured borrowings, at fair value.
- (2) Excludes HMBS-related obligations.
- (3) All of our non-recourse borrowings are secured by collateral. In the event of default under a non-recourse borrowing, the lender has a claim against the collateral but not any of the Operating Partnership’s other assets. In the event of default under a recourse borrowing, the lender’s claim is not limited to the collateral (if any).
- (4) Excludes repo borrowings on U.S. Treasury securities and borrowings at certain unconsolidated entities that are recourse to us. Including such borrowings, our debt-to-equity ratio based on total recourse borrowings is 2.2:1 as of March 31, 2023.
- (5) Overall debt-to-equity ratio is computed by dividing EFC’s total debt by EFC’s total equity. The debt-to-equity ratio does not account for liabilities other than debt financings. Excludes repo borrowings on U.S. Treasury securities.

Slide 26– EFC Portfolio – Schedule of Unencumbered Assets as of March 31, 2023

- (1) Includes REO at the lower of cost or fair value. Excludes hedges and other derivative positions.

Slide 32 – Long Credit Portfolio

- (1) Includes REO at the lower of cost or fair value. Excludes hedges and other derivative positions.. For our consolidated non-QM securitization trusts, excludes tranches that were sold to third parties, but that are consolidated for GAAP purposes. Including such tranches, the Company's total long credit portfolio was \$3.953 billion as of March 31, 2023.
- (2) Includes equity investments in securitization-related vehicles.
- (3) REO is not considered a financial instrument and as a result is included at the lower of cost or fair value.
- (4) Includes equity investments in unconsolidated entities holding small balance commercial mortgage loans and REO. Including our allocable portion of the fair value of small-balance commercial loans and REO of the equity investments in unconsolidated entities, our total CMBS and Commercial Mortgage Loans and REO were \$577.7 million as of March 31, 2023.
- (5) Includes an equity investment in an unconsolidated entity holding European RMBS.

Slide 33 – Diversified Credit Portfolio

- (1) Subject to maintaining our qualification as a REIT.
- (2) Excludes hedges and other derivative positions.
- (3) For our consolidated non-QM securitization trusts, only retained tranches are included (i.e., excludes tranches sold to third parties).

Slide 34 – Small Balance Commercial Mortgage Loan Portfolio - Detail

- (1) Percentages are of unpaid principal balance.
- (2) Includes our allocable portion of certain small-balance commercial loans, based on our ownership percentage, held in entities in which we and certain affiliates of Ellington have equity interests. Our equity investments in such entities are included in Investments in unconsolidated entities, at fair value on the Condensed Consolidated Balance Sheet.

Slide 35 – Long Agency Portfolio

- (1) Agency long portfolio includes \$838.2 million of long Agency securities and \$14.9 million of interest only securities as of March 31, 2023.
- (2) Represents weighted average net pass-through rate. Excludes interest only securities.

Slide 36 – Longbridge Portfolio

- (1) This information does not include financial derivatives or loan commitments.
- (2) HECMs are consolidated for GAAP reporting purposes, and accounted for on the Company's balance sheet as collateralized borrowings. The fair value of HECM assets less the fair value of the HMBS-related obligations approximate fair value of the HMBS MSR Equivalent.
- (3) As of March 31, 2023, includes \$52.0 million of assignable HECM buyout loans, \$16.4 million of non-assignable HECM buyout loans, and \$4.4 million of inactive HECM tail loans.

Slide 37 – Repo Borrowings

- (1) Included in the table, using the original maturity dates, are any repos involving underlying investments we sold prior to March 31, 2023 for settlement following March 31, 2023 even though we may expect to terminate such repos early. Not included are any repos that we may have entered into prior to March 31, 2023, for which delivery of the borrowed funds is not scheduled until after March 31, 2023. Remaining maturity for a repo is based on the contractual maturity date in effect as of March 31, 2023. Some repos have floating interest rates, which may reset before maturity.

Slide 38 – Condensed Consolidated Statement of Operations

- (1) Derived from audited financial statements as of December 31, 2022.

Slide 39 – Condensed Consolidated Balance Sheet

- (1) Derived from audited financial statements as of December 31, 2022.
- (2) Common shares issued and outstanding at March 31, 2023, includes 4,433,861 shares of common stock issued during the quarter under the Company's at-the-market common stock offering program and 1,061,000 shares repurchased under our share repurchase program.
- (3) Based on total stockholders' equity less the aggregate liquidation preference of our preferred stock outstanding.

Slide 40 – Reconciliation of Net Income (Loss) to Adjusted Distributable Earnings

- (1) We calculate Adjusted Distributable Earnings as U.S. GAAP net income (loss) as adjusted for: (i) realized and unrealized gain (loss) on securities and loans, REO, mortgage servicing rights, financial derivatives (excluding periodic settlements on interest rate swaps), any borrowings carried at fair value, and foreign currency transactions; (ii) incentive fee to affiliate; (iii) Catch-up Premium Amortization Adjustment (as defined below); (iv) non-cash equity compensation expense; (v) provision for income taxes; (vi) certain non-capitalized transaction costs; and (vii) other income or loss items that are of a non-recurring nature. For certain investments in unconsolidated entities, we include the relevant components of net operating income in Adjusted Distributable Earnings. The Catch-up Premium Amortization Adjustment is a quarterly adjustment to premium amortization triggered by changes in actual and projected prepayments on our Agency RMBS (accompanied by a corresponding offsetting adjustment to realized and unrealized gains and losses). The adjustment is calculated as of the beginning of each quarter based on our then-current assumptions about cashflows and prepayments, and can vary significantly from quarter to quarter. For the contribution to Adjusted Distributable Earnings from Longbridge, we adjust Longbridge's contribution to our net income in a similar manner, but it includes in Adjusted Distributable Earnings certain realized and unrealized gains (losses) from Longbridge's origination business ("gain-on-sale income"). Adjusted Distributable Earnings is a supplemental non-GAAP financial measure. We believe that the presentation of Adjusted Distributable Earnings provides information useful to investors, because: (i) we believe that it is a useful indicator of both current and projected long-term financial performance, in that it excludes the impact of certain current-period earnings components that we believe are less useful in forecasting long-term performance and dividend-paying ability; (ii) we use it to evaluate the effective net yield provided by our investment portfolio, after the effects of financial leverage and by Longbridge, to reflect the earnings from its reverse mortgage origination and servicing operations; and (iii) we believe that presenting Adjusted Distributable Earnings assists investors in measuring and evaluating our operating performance, and comparing our operating performance to that of our residential mortgage REIT and mortgage originator peers. Please note, however, that: (I) our calculation of Adjusted Distributable Earnings may differ from the calculation of similarly titled non-GAAP financial measures by our peers, with the result that these non-GAAP financial measures might not be directly comparable; and (II) Adjusted Distributable Earnings excludes certain items that may impact the amount of cash that is actually available for distribution. In addition, because Adjusted Distributable Earnings is an incomplete measure of our financial results and differs from net income (loss) computed in accordance with U.S. GAAP, it should be considered supplementary to, and not as a substitute for, net income (loss) computed in accordance with U.S. GAAP. Furthermore, Adjusted Distributable Earnings is different from REIT taxable income. As a result, the determination of whether we have met the requirement to distribute at least 90% of our annual REIT taxable income (subject to certain adjustments) to our stockholders, in order to maintain our qualification as a REIT, is not based on whether we distributed 90% of its Adjusted Distributable Earnings. The following table reconciles, for the three-month period ended March 31, 2023, our Adjusted Distributable Earnings to the line on our Consolidated Statement of Operations entitled Net Income (Loss), which we believe is the most directly comparable U.S. GAAP measure.
- (2) Includes realized (gains) losses on securities and loans, REO, financial derivatives (excluding periodic settlements on interest rate swaps), and foreign currency transactions which are components of Other Income (Loss) on the Condensed Consolidated Statement of Operations.
- (3) Includes unrealized (gains) losses on securities and loans, REO, financial derivatives (excluding periodic settlements on interest rate swaps), borrowings carried at fair value, and foreign currency transactions which are components of Other Income (Loss) on the Condensed Consolidated Statement of Operations.
- (4) Represents net change in fair value of HMBS MSR Equivalent and mortgage servicing rights related to proprietary mortgage loans attributable to changes in market conditions and model assumptions. This adjustment also includes net (gains) losses on certain hedging instruments, which are components of realized and/or unrealized gains (losses) on financial derivatives, net on the Condensed Consolidated Statement of Operations.
- (5) Includes net interest income and operating expenses for certain investments in unconsolidated entities.

Slide 41 – Investment Highlights of EFC

- (1) Management and directors' ownership includes common shares, operating partnership units, and LTIP units held by officers and directors of EFC, and partners and affiliates of Ellington (including families and family trusts of the foregoing).
